Summary

Dedicated and skilled Full Stack Developer and AI enthusiast pursuing a degree in Information Technology at Kabarak University, expected to graduate in December 2025. Graduated from Chemamul Boys High School in 2017. Expertise in PHP, HTML, CSS, JavaScript, Kotlin for Android, XML, and Python for AI. Proficient in MVVM and MVC architectural patterns. Experienced in developing websites, mobile applications, and working on IoT projects. Proven track record of collaborating with teams for WordPress site development, including notable work on Christ Fellowship Chapel Church's website. Strong background in database management using SQL and Firebase. Knowledgeable in deploying applications using Flask and Node.js.
